Note:

1. Always install the latest firmware on the Firefly Pro, the inverter firmware version is subject to the notification from the inverter manufacturer.
2. The Information in this document is subject to change without notice. Every effort has been made to make this document complete, accurate, and up-to-date. However, Tecloman may need to make some improvements under certain circumstances without advance notice. Please take the latest version of this document at our websites into account.
3. Firefly Pro can support parallel use, requirements for parallel connection: Maximum Five battery systems could be connected in parallel; Every Firefly Pro connected in parallel requires the same module quantity.
4. The above configuration is only the suggestion, the actual requirements can be negotiated by Tecloman
5. Module quantity 3~8 represent Firefly Pro H3~H8

The final power of interpretation owe to Tecloman!
